

NORWALK MICHAEL FOODS MECHANICAL PROJECT

ACI Mechanical provided complete mechanical system delivery, including:

- * Industrial process piping systems (CIP, caustic, steam)
- * Compressed air systems supporting production equipment
- * Plumbing systems for plant and welfare areas
- * Food-grade compliant piping installations
- * HVAC systems for both process and occupied spaces
- * Integration of utilities critical to continuous production

AREA: 162,000 SQFT

LOCATION: NORWALK, IA
